TABLE OF CONTENTS

LIST OF ABBREVIATIONS	iii
1.0 SUMMARY	1
2.0 INTRODUCTION.....	2
2.1 Overview of Product Acceptability Principles.....	2
2.2 Acceptability	3
2.3 Overview of IOM Regulatory Principles.....?	
2.4 Principles of Harm Reduction	3
3.0 PRODUCT DESCRIPTIONS (CA/E-4/F/JLI-Bridging/JLI)	19
3.1 EHCSS Cigarette versions	4
3.2 Lighter/Heater versions.....	5
4.0 NON-CLINICAL STUDIES	5
4.1 Smoke Chemistry (ISO & Topography)	7
4.2 Mutagenicity (ISO & Topography).....	7
4.3 Cytotoxicity (ISO & Topography)	8
4.4 Rodent Inhalation Studies	9
4.4.1 90-day Inhalation Studies	28
4.4.2 21-day Deposition Studies	28
4.4.3 35-day Inflammation Studies	28
4.5 Environmental Tobacco Smoke Studies	??
4.6 Summary of Non-clinical Studies	40
5. CLINICAL STUDIES.....	42
5.1 Sensory Acceptability Studies.....	44
5.2 Overview of Clinical Exposure Studies	48
5.3 Summaries of Clinical Exposure Studies	52
5.3.1 Objectives	
5.3.2 Background, rationale for study	
5.3.3 Products tested	
5.3.4 Site(s) for clinical and laboratory work	
5.3.5 Investigator(s)	
5.3.6 Time, when study and laboratory work was performed	
5.3.7 Study design	
5.3.8 Study population	
5.3.9 Methods of investigation and standards of performance	
5.3.9.1 Clinical	
5.3.9.2 Questionnaires	

HA+HC ←

Study 1

5.3.9.3 Topography

5.3.9.4 Environmental tobacco smoke

5.3.9.5 Laboratory

1. Clinical
2. Bioanalytical
3. Microbiology (Ames)

5.3.10 Data collection and analysis

5.3.11 Results

- i. Study population, demographics, drop outs
- ii. Protocol deviation
- iii. Clinical including adverse events
- iv. Questionnaires
- v. Topography
- vi. Environmental tobacco smoke
- vii. Laboratory

 1. Clinical
 2. Bioanalytical
 3. Microbiology (Ames)

5.4 Summary of Clinical Exposure Studies.....

5.4.1 Biomarkers, selection rationale

5.4.1.1 Exposure and biologically effective dose

5.4.1.2 Potential harm

5.4.2 Summary table of all clinical studies with

5.4.2.1 Study number

5.4.2.2 Design

5.4.2.3 Products tested

5.4.2.4 Number of subjects

5.4.2.5 Biomarkers

5.4.2.6 Statistical methods

5.4.2.7 Comments

5.4.3 Summary tables and figures of all clinical studies with

5.4.3.1 Biomarker results

5.4.3.2 Adverse events

5.4.3.3 Statistical results

5.5 Conclusions

6.0 APPENDIXES

6.1 References.....

6.2 Literature Review

6.3 EHCSS Pamphlet

6.4 EHCSS Owners Manual

5.4.1.1
2
